Milwaukee Journal: Inflation: For what it cost the government to finance the Lewis and Clark expedition—\$2,500—we could just about get a bureaucrat aboard the train.

## Elks And Families Held Annual Picnic on Sunday

Games, Songs and Refreshments Enjoyed by All; Sherratt's Softball Team Given Artistic Drubbing.

Coleman Elks and their families, numbering approximately 90 persons, motored to the Scout camp on Sunday for their annual picnic. The weather man was on his best behavior and all report a wonderful time.

The main item of interest on the sports program was the softball games. The men had two teams and the ladies two. George Jenkins' aggregation was much too powerful for Herb Sherratt's outfit and the score read 28-8 for Jenkins with the end still not in sight. The game was halted on the agreement that it would be fought to a finish next year.

Mrs. R. Vincent's stellar players were on the long end of a 4-2 score against Mrs. W. Dutil's team when the game was finished.

Races were enjoyed by the many youngsters, in which all were winners.

An amateur hour was enjoyed, when artists Jim Lowe gave a cornet solo and song, Mary Wilson a song, Adam Wilson a song, Frank Kendzek a song, Howard Davies a song, George Vincent a cornet solo. Out-of-town artists who were well received were a 9-year-old youngster from Blairmore named Rochi Bialafio, who sang several songs in a very fine voice, and three Saskatchewan girls who sang several French songs.

The refreshments consisted of 10 gallons of ice cream and 300 bottles of soft drinks.

The day came to a close with community singing.

## Harry Boulton Warns Against Forest Fires

Moose and Elk Plentiful in Local Forests; Moisture Little Better Than in Past Several Years.

"We have been exceptionally lucky," was the way Forest Ranger Harry Boulton described the fire hazard as pertaining to the forests under his supervision in this area.

There have been no bad outbreaks of fire here in several years and this year the moisture supply is better than it has been at this time of the year in the past. The B.C. forests close to the Alberta boundary have been free from fire, adding to the safety of Alberta forests.

Big game is becoming more plentiful here and moose are to be seen in haunts this year which they have not frequented before. Elk also are increasing in substantial numbers.

Forest trails are being kept open by Forest Ranger Boulton and his assistants.

Should the forests suffer from a dry spell during the next month, the moisture will soon evaporate, leaving the ground and underbrush tinder dry. Warning is given by the forest ranger that persons frequenting the forests make definitely sure that their matches, cigarettes and camp fire are positively out before leaving.

Due mainly to war conditions Ranger Boulton finds there are not as many people going into the forests camping and fishing as formerly and he attributes this to the lessening of the fire hazard and the increase in wild life.

**PRICES TO BE SET ON FRESH FRUITS**

Peaches, plums and pears will come under the price ceiling, and control of prices of apples is being considered by the Wartime Prices and Trade Board.

Action to set maximum prices for root crops, carrots, beets, turnips, parsnips and cabbage during periods of short supply is also under consideration of the Board.

### CEILING PRICE ON BANANAS IS 15c

Ceiling price of bananas is 15 cents per pound, retail, and anyone selling bananas for more than that price is infringing on prices regulation of the Wartime Prices and Trade Board, officials of the Edmonton regional office assert. Ceiling prices were fixed for bananas by the Board some months ago, in an order which also states that bananas must be sold by weight.

## Recruiting Party to Visit Coleman

Timed to coincide with the second anniversary of the Canadian Women's Army Corps, nine recruiting parties will soon begin a tour of the province seeking recruits for the CWAC, headquarters of Military District 13 at Calgary announces.

First of the parties to come to southern and southeastern Alberta will begin the drive at Macleod August 16 and will visit 23 towns as well as the city of Lethbridge before concluding its itinerary at Lethbridge on August 30.

Coleman will be visited all day Friday, August 20.

The recruiting party will be under the direction of Sgt. Vera Shirley, of Lethbridge. Formerly a newspaper woman, Sgt. Shirley has two brothers and her husband serving with the armed forces.

Following is the itinerary for The Pass of the recruiting party: Wednesday, August 18, 2:30 to 10 p.m. at Hillcrest.

Thursday, August 19, Blairmore, all day.

Friday, August 20, Coleman, all day.

Saturday, August 21, Pincher Creek, all day.

The recruiting party will have its headquarters in Coleman in the IOOF hall.

## Flying Officer Liston Anderson Killed in Action

Local hockey players and fans alike heard with regret the news of the death of PO Liston Anderson, who was killed in action on July 30.

A member of the Kinsmen Club, he played twelve seasons as a defenceman with Drumheller Miners and was seen in action several times at the local arena.

Surviving are his wife, whom he married in May, 1942, and his parents, of Drumheller, as well as a brother.

—V—

"OUR" B.E.M.

Jim Houghton, known to many at Plate as the one-time Foreman of the Bichereux plant, and to the present personnel of Unbroc as the Foreman of the Furnace Hall, is also in the King's recent Birthday Honors List. His B.E.M. is a fitting reward for all his endeavors to produce only the best Glass. Congratulations, Jim. We share your pride in your Honor. If later you feel like telling us all about your investiture, as Mr. Weston (our Doncaster B.E.M.) does in this issue, you have our assurance that we shall be happy to print it.

—St. Helen's Reporter, Lancashire, England.

Ed's Note — Mr. Houghton is a nephew of Mrs. Wm. Antrobus, Mrs. Wm. Borrowes and Mrs. J. Houghton.

### ONE OF BRITAIN'S "WRENS" CHECKS OVER A FLEET AIR ARM AIRCRAFT

"Wrens"—British Women's Royal Naval Servicewomen—have taken over the various maintenance duties at ports and naval air stations. They are doing a great job. Much of the work is heavy, much of it requires specialized knowledge. Repairing and adjusting binoculars, overhauling air cameras, checking Fleet Air Arm planes on their return from operations, and gunnery maintenance work on board warships, are just a few of the tasks undertaken by these Maintenance Wrens. Picture shows a Wren checker in the cockpit of a Fleet Air Arm plane.

### CANADA MOVES TO SAVE COAL

## Hon. Howe Says It Is An Offence To Waste Coal In Canada

Canada Moves to Save Coal; Maximum Temperatures for Industrial Plants, Commercial and Other Buildings.

Munitions Minister Howe said at Ottawa on Monday night that an order-in-council will be passed which will make it an offence to waste coal or heat, and that the order will apply to everyone—householders as well as commercial and industrial users.

In an address prepared for delivery over the national network of the Canadian Broadcasting Corporation, Mr. Howe said that under the order-in-council maximum temperatures will be established for industrial plants and commercial and other buildings, the temperatures to vary according to the need.

"For example," he said, "less heat will be permitted in theatres, auditoriums and other public buildings where people gather for short periods and where warm clothing can be worn. When this type of building is not in use, the temperature will be drastically reduced."

### Schools Affected

"Temperatures in schools will be dropped sharply as soon as school is out. The same will apply to office buildings after working hours. These are only a few of the measures which must be taken if we are to reduce the consumption of coal in industrial plants and commercial and other buildings."

## Cigarette Fund Notes

Dear Sirs: Many thanks for cigs received today, and once again I say they sure are very welcome. Things over here are going fine, and all the old boys are in the best of spirits—Bert Murray.

Dear Friends: Many thanks for cigs just received. They always arrive at the right moment. I am fine and working hard now and long hours. I don't mind as long as we get this thing over with soon. The weather here is real hot at present. Could sure go a bottle of Lethbridge beer right now. How are the boys in the Lions Club, or are there any left? Thanks again, and to all those who make these gifts possible.—Archie Wragg.

Dear Comrades: Many thanks for the fags received last night. All's under control over here. I see the first boys and the gang quite often, and it's just like home. Thanks again.—L. A. Caroe.

Dear Sirs: Thanks a lot for the cigarettes. Appreciate them more than ever. Doing well, feeling fine. God bless you and good luck.—L.C. Panek.

Dear Comrades: Received cigs and tobacco o.k. Thanks very much. Sorry to be tardy in replying, but

The minister said certain industries have already made considerable headway in conserving coal, and it is estimated that through these measures more than 100,000 tons have been saved.

To achieve the purpose of the order a nation-wide conservation program will be launched, with the object of saving at least 20 per cent of the coal which was burned last year.

"This means," said Mr. Howe, "that if you burned five tons last year we will expect you to burn four tons this year." There are several ways in which this can be done. Among them are the improvement of insulation, the cleaning of pipes and furnaces, and better-fitting windows and doors, especially storm sashes.

The minister said the government will ask owners of commercial buildings and industrial plants to appoint special coal wardens, whose duty it will be to see that every possible conservation measure is taken.

### Charcoal, Too

In a move to conserve wood-fuel, also, the munitions department announced that a ban has been placed on the construction of new charcoal kilns or additions to existing kilns.

The new order, issued by Wood Fuel Controller J. S. Whalley, also prohibits, except by permit, the production of charcoal from any kind or other, facility not now in use or available for immediate use.

The little green knitted suit is beautifully made, and has gone to a little boy who has no parents. Some sweets and biscuits went to a girl who is very poor and has no pocket money sent to her. Other sweets went to a little girl whose father was killed by a bomb. A packet of sweet biscuits went to a very poor mother evacuated here, who has just had a baby girl. So you see what pleasure your gifts have bestowed. The warm nightgown and green frock with the Victory sign will each be given to a child who is in want.

What hundreds of miles the parcel must have travelled and what adventures it must have had.

Please accept the grateful thanks of all of us at the billiding office. All the staff enjoyed seeing it unpacked, and many kind things were said of the Guides who had thought of our children.

Yours sincerely,

E. H. Merchant (signed) Evacuation Welfare Officer for High Wycombe.

Aerial photographs make accurate bombing possible. Your \$50 Victory Bond will buy 200 photographs and a U-Boat base.

### \$185 IN TICKETS SOLD LOCALLY ON GREEK HOME

The sale of tickets on the Calgary Greek home has been discontinued at Antrobus' office. During the past few months, Mrs. Antrobus, aided by Miss Vuill and her Junior Red Cross, have sold \$185 in tickets on this home, which is being raffled off under the supervision of the Calgary IOOE in aid of the Greek War Relief Fund. Coleman's support to the Greek Fund has been most noteworthy.

### SERVING OVERSEAS

Sgn. Jake Andreaschuk, Pte. Steve Mysyniuk and Pte. Lawrence Jankulak, all West Coleman men who had their pictures taken in England last February. They all went overseas in 1942 and Pte. Jankulak, when last heard from, had arrived in North Africa.

## Girl Guide Notes

As a "follow-up" of our Badge Night we are pleased to report that Lenore Dafee has been awarded her all-round cord. This meant very concentrated work for the last month, as the two badges required to complete the credits for the cord are the ones requiring the most study. Lenore is to be congratulated upon completing this work and earning this cord.

The Guides, especially, will be interested in the following letter, received recently, in acknowledgment of our second parcel, sent in April:

Evacuation Dept., High Wycombe, Bucks, England.

The Captain, 1st Coleman Girl Guide Co., Coleman, Alberta.

Dear Madam:

Your very welcome parcel arrived safely, and although Mrs. Sharpe has returned to Canada, we were only too pleased to receive it. Already we have put to good use the many nice and useful gifts you so kindly sent. Please give our warmest thanks to the Girl Guides who have given their time and money on our evacuated children's behalf.

The little green knitted suit is beautifully made, and has gone to a little boy who has no parents. Some sweets and biscuits went to a girl who is very poor and has no pocket money sent to her. Other sweets went to a little girl whose father was killed by a bomb. A packet of sweet biscuits went to a very poor mother evacuated here, who has just had a baby girl. So you see what pleasure your gifts have bestowed. The warm nightgown and green frock with the Victory sign will each be given to a child who is in want.

What hundreds of miles the parcel must have travelled and what adventures it must have had.

Please accept the grateful thanks of all of us at the billiding office. All the staff enjoyed seeing it unpacked, and many kind things were said of the Guides who had thought of our children.

Yours sincerely,

E. H. Merchant (signed) Evacuation Welfare Officer for High Wycombe.

A cigarette or match, tossed out of a car window, may mean lost lives, lost timber, lost jobs—also a lost war effort.

## Ask For Fish & Game Warden In Pass Forests

Poaching Said to Be Prevalent; Closed Creeks Not Given Sufficient Protection State Sportsmen.

It is understood that a few local sportsmen are about to agitate that a fish and game warden be stationed permanently in the Pass to police the game and fish areas in the Crows' Nest Pass forests.

In an interview with The Journal on Tuesday, one local sportsman remarked that deer were being shot out of season. Hunters in both Coleman and Bellevue are said to be guilty of this practice.

He stated that agitation had already started to have all streams in the district open to fishing. "Why close certain streams to fishermen," he asked, "when said streams are not given sufficient protection against those who will not abide by the regulations?"

Game, such as moose, elk, deer, sheep, goat and bear are to be found in the surrounding mountains, and according to Fire Ranger Boulton, the first two named animals are on the increase in this area. Ruffed grouse and blue grouse are also fairly plentiful, with a few ducks also to be found.

A year and a half ago fish and game warden Joe Cardinal was taken from the Pass area and transferred to Red Deer. While here he proved himself one of the best fish and game wardens, and many persons guilty of breaking sport regulations were brought into court. He became disliked by many, but he had the moral support of all true Pass sportsmen to keep up his good work. His transfer from this area was a severe loss in maintaining law and order among certain nimrods of the rod and gun.

A game warden for this area resides at Lethbridge and the fish warden at Pincher Creek. However, it is maintained these towns are too far distant for the wardens to maintain the constant vigilance in the local forests which is warranted.

## Mail From Britain to Coleman in Four Days

In these days of war and modern transportation conditions can quickly change. An instance of this is shown in the receipt of two letters by Mr. and Mrs. Sam Howarth from their son, Pte. John Howarth, based in Britain. He posted the first letter on July 23, and they received it on July 27, an interval of four days. The same speed was maintained in a letter postmarked in Britain July 28, and bearing the Coleman postmark August 1.

The fast delivery has been made possible by the new air service inaugurated by the federal government across the Atlantic to speed up mail to and from the armed services in Britain. A few short months ago letters from Britain were taking a month or more to reach their destination.

### RECEIVED PILOT OFFICER'S COMMISSION

On Thursday last Mr. and Mrs. Adam Wilson and Mr. and Mrs. Gabe D'Amico motored to No. 2 SPTS, Macleod, where they witnessed the graduation ceremony of a number of airmen receiving their wings.

Member of the graduation class was Ricardo D'Amico, brother of Mrs. Wilson and Mr. D'Amico. Ricardo also received his commission as a pilot officer that same day. He has been transferred to eastern Canada. His home town is Hillcrest.

### ENLIST IN NAVY

Bill Bell and Joe DeLuca enlisted in the navy at Calgary on July 19, both as stokers second class. They are posted at Calgary at the present time and enjoying the new life immensely.

## The War Against Submarines

CANADIANS WERE TOLD recently that progress is being made in the Battle of the Atlantic and that we can now be said to be holding our own in that important phase of the war. In May the toll of enemy submarines was said to be one a day, and in June the shipping losses in the North Atlantic were the lowest in nineteen months. It is well known to the enemy that the valuable and ever-increasing volume of Canadian and American munitions and supplies must be transported to the battle fronts in ships, and the intensive submarine campaign in the Atlantic was, in part, Germany's answer to the bombing of her industrial centres. On April 7, of this year, Goebbels wrote in the German newspaper "Das Reich": "We possess a terribly effective weapon in submarine warfare which at the moment is hitting Britain harder than the air war is hitting us."

### Offensive Was Started Early

Since the beginning of the war Germany has steadily increased her rate of submarine production. It is believed that by establishing a system of standardization, the number of man-hours required to produce a U-boat have been reduced by one-third, and that Germany may have as many as five hundred submarines in commission. This would mean that over one hundred might be at sea at one time. Since the campaign began, Britain and the other United Nations have developed increasingly powerful counter-measures against the U-boat. The navies and air forces have co-operated in attacks on any places connected with the building and operating of submarines, as well as on the U-boats themselves when they are at sea. This offensive has been encouraged by the activities of the Anti-U-Boat Welfare Committee, set up in London in 1942.

### Air and Naval Attacks Heavy

Submarine bases and building yards on the Continent have been constant targets for air attack and we are told that the majority of submarine crews, which are trained in the Baltic sea, never return to their bases due to the mines laid there by the Royal Air Force. It is estimated that about one-third of the German plants for submarine production have been destroyed by air attack, and Lorient and St. Nazaire, the principal submarine bases on the French Atlantic coast, have been subjected to numerous thousand-ton raids. Planes of the Coastal Command also attack U-boats relentlessly in the Bay of Biscay, through which they must pass on their way into the Atlantic. The naval forces of Britain, Canada and the United States have all taken part in the offensive and defensive war against the submarine at sea. Many new and secret devices have been brought into use and new, fast sub-chasing ships have been used. The Canadian navy protects the Western half of the North Atlantic convoy route and Canadian ships, as well as the ship-building yards of the Dominion have played an important part in this critical battle against the submarines.

EGGS AS A MEAT SUBSTITUTE

Now that meat rationing is established, you probably have your own system of meal planning in full swing. In households of two or three people you will find it more advantageous to serve meatless meals a couple of times a week. You can replace the meat by food such as eggs, cheese, fish, poultry, which are in the same category nutritionally. Eggs are important in our diets because they provide us with the best quality protein, essential minerals and vitamins A, D, B1 and B2. You should eat 3 to 4 eggs a week; if you plan to have an egg dish for supper you could use part of your weekly supply this way. Do not cook the eggs at a high temperature as the whites become tough—you should always use a moderate, even heat for all types of egg cookery. Eggs are readily and completely digested when properly cooked. You will find eggs a great asset to your menus not only for their palatability but also because they can be used in a variety of ways. Eggs are used as:

- (1) Main dish—souffles, omelets, casserole dishes.
  - (2) Leavening agent—in sponge cakes. The egg white holds air, beaten into it and forms a foam. If necessary, half the amount of eggs in a sponge cake may be replaced by milk and baking powder. 1 egg, 2 tsp milk and ½ tsp. baking powder.
  - (3) Thickening agent—the protein in the egg coagulates. One egg may be replaced by 1 tsp. flour or ½ tsp. corn starch.
  - (4) Emulsions—in mayonnaise.
- Write to the Western Division Health League of Canada, 111 Avenue Road, Toronto, for Egg Dishes.

### Hard On Civilians

Renovation Of Clothing Is Made Difficult By Labor Shortage

In the tight grip of the coupon we are all learning how to make clothes and other things last longer. And even the army, accused in the past, and not without reason, of reckless extravagance, has taken the lesson to heart. There are military depots in the country which receive all sorts of damaged goods, repaired, and send them back fit for further service.

The renovation of clothing is the chief work of these establishments. Worn uniforms are cleaned and repaired. They are made, if not as good as new, good enough to be re-issued and to stand up to more of the rough usage which the soldiers give them. One such depot in the northwest deals in a year with 182,000 battle-dress blouses, 104,000 pairs of trousers, 50,000 suits, and 100,000 greatcoats. There are also underwear, respirators, anti-gas clothing, and scores of miscellaneous things which the army uses and wears down.

Meanwhile the civilians' efforts to follow this good example are severely handicapped. The staffs of the various firms who clean and "value" clothes have been so depleted that they cannot always be persuaded to accept garments for treatment, and the customer has learned that he may have to wait weeks, possibly months, instead of the few days that were enough in peace-time.—Manchester Guardian.

Lasting only a quarter of an hour, a hailstorm did damage to the value of \$2,000,000 in Dallas, Tex., May, 1938.

### Tribute On Canvases

Artist Paints Munitions Girl At Work In War Factory

In the Royal Academy in London is a new outstanding painting by Dame Laura Knight, R.A. The subject for that picture is a munitions girl, Ruby Loftus, 21, working at her bench in a war factory. Wearing blue overalls and a bright green hair net over her dark hair, Ruby is seen bending over her work, her sleeves rolled up over her elbows and her eyes intent on what she is doing. Sparks are flying from the lathe. Before her on the bench are the tools she uses for her specialized work. In the background are other workers at other benches, all women, all doing an efficient job of work. The picture is a tribute to the women who are doing so much for the war effort by the enthusiastic way in which they have taken over work in war plants which had never before come within women's sphere.

### British Nursery Schools

Plan Has Been Greatly Expanded During The War

Nursery schools, designed to help busy mothers with infants below school age, have been expanded in Britain during the war, and the organizations headed by Dr. Blatz of Toronto has helped greatly in this. But the Nursery School Association has long been established in Great Britain, and when the war started, there were 9,000 infants in over 100 nursery schools and 170,000 in nursery classes.

The ancient Greeks and Romans painted signs on walls in public places as a means of spreading news.

### Roll your owners! Go for Ogden's

The Pony Express, in the old days, of the West, carried essential messages... Here is one for you: For complete smoking satisfaction follow the example of the oldtimers and go for Ogden's—a distinctive blend of choicer, riper tobaccos.

Ogden's quality for pipe smoker, too, in Ogden's Cut Plug

### Farm Property

Guide Issued For The Selection Of Agricultural Soils

In evaluating a farm property and in estimating the chances of making a satisfactory living from it, the nature of the soil, among many other things, must be given serious consideration, state P. C. Stobbe and A. Leashey, Field Husbandry Division, Dominion Experimental Farms Service, in the Farmers' Bulletin No. 117, "Guide for the Selection of Agricultural Soils". The first essential of success in farming is to have a fertile soil that is adapted to the crops which are to be grown on it. However, in addition to productivity, other factors relating to the soil, such as the cost of tillage and other management operations, must be kept in mind. In order to help farmers, the main features that should be observed in examining farm land are explained in the bulletin, covering in detail the examination itself, discussion of the eleven soil zones of the Dominion, the various soils, local conditions to be observed, depth, colour, texture, structure, together with a diagram key to soil classes and soil maps of Eastern Canada and the Prairie Provinces. A copy of the bulletin may be obtained by writing to the Publicity and Extension Division, Dominion Department of Agriculture, Ottawa.

### Drug Addicts

Study Conducted In U.S. Shows That Many Are Cured

In a follow-up study of 4,766 patients discharged from the U.S. Public Health Service Hospital at Lexington, Ky., after treatment for drug addiction, it was found that 74.7 per cent. of the patients had relapsed and 25.3 per cent. had remained abstinent. The figures excluded those who had died or could not be traced.

"The general belief that a drug addict can never be cured is not supported by this follow-up study," The Journal of the American Medical Association, comments.

Translucent screens for outdoor motion pictures are used in Free China, so that people on both sides can see the film.

### Women On Scientific Front

Employees of the Inspection Board of the United Kingdom in Canada are here shown at their draughting board where they are designing special gauges for use in checking parts of munitions made in Canada's war factories. The gauges are for use by Government inspectors to double check certain articles which must be manufactured on a high precision standard. Women with scientific training have found an outlet for their abilities in this work and these young graduates are helping the Empire to attack the Axis through science.

### EQUINE ENCEPHALOMYELITIS

Manitoba casualties in the 1941 epidemic of western equine encephalomyelitis (sleeping sickness) were greater than casualties suffered by the Manitoba Regiment at Dieppe, according to Dr. F. W. Jackson, deputy minister of health and public welfare for the province, reporting in the July issue of the American Journal of Public Health.

Results of an experimental vaccination program on 3,000 persons justify continuation of experimentation so that the value of the vaccine used may be ascertained, Dr. Jackson states. There were many more volunteers for the experiment conducted in 14 Manitoba areas than the department was able to immunize.

The Manitoba outbreak was part of a much wider epidemic which affected Saskatchewan, North Dakota and Minnesota, causing a total of 2,957 cases and 342 deaths, with a case fatality rate of 11.6 per cent. North Dakota had 1,106 cases, Minnesota 804, Saskatchewan 545 and Manitoba 569. There were 61 deaths in Saskatchewan and 71 in Manitoba. The Manitoba fatality rate was 15.3 per cent, the highest, while Saskatchewan's rate of 8.1 was the lowest.

Eighty-one per cent. of the Manitoba cases were in individuals 21 years of age and over and the "high attack rate" was in the working-age group, 20 to 50 years.

"Western Equine encephalitis would definitely seem to be a disease of adult males in the older age groups, and adult males who work out of doors," Dr. Jackson comments.

The deputy minister said he was disinclined to blame on the encephalitis the illness of all those who had not yet recovered, but reported that a study of infants who had contracted the disease showed several cases in which there would probably be permanent disability. Two babies were completely spastic and would be permanently incapacitated.

"Since the occurrence of the epidemic, over one-third of the cases which occurred in the armed forces have since been discharged as 'medically unfit' to take further training," Dr. Jackson reports.

### HEALTH OF COAL MINERS

A group of miners, picked at random, will be used in a British Health Department experiment intended to better the health condition of coal workers. They will be examined every three months and their diet checked carefully.

### FOR COMIC OPERA

Were it not so tragic for the Italian people, a merry comic opera could be written on the fiasco of Mussolini as a modern Caesar. His absurd caperings and bombast would have made a perfect libretto and score for Gilbert and Sullivan.

At a meeting of the Standard Cloth Panel held at Bombay (India) plans were made for increasing India's production of cotton piece-goods by 10% to 4,700,000,000 yards, annually.

### SMILE AWHILE

Shopkeeper (angrily)—What's the idea of throwing those shoes away?

New Assistant—They're no good. I've tried 'em on six customers and they don't fit any one.

Sentry—Halt! Who goes there! Voice in the Dark—Cook, with doughnuts for breakfast.

Sentry—Pass, Cook. Halt, doughnuts.

Husband—My shaving brush is very stiff; I wonder what's wrong with it?

Wife—"I don't know; it was nice and soft when I painted the bird cage yesterday."

"I want something really nice for a present," explained the shopper to the assistant.

"For your husband, madam?"

"No, from my husband," came the reply, sweetly.

"Did you ever make your living writing poetry?"

"No, but I had a similar experience. I got lost in the woods and didn't eat for a week."

Teacher: "Now, Freddy, why does a polar bear wear a fur coat?"

Freddy: "Oh-er, well I suppose he would look funny in a tweed one."

### Evolution of the automobile:

1940—No running boards.  
1941—No gear shifts.  
1942—No tires.  
1943—No car.

In the early hours the sleeper was roused by his nervous wife saying: "John, I'm sure I heard someone coming up the stairs."

What's the time?" he asked sleepily.

"Just two o'clock."

"That's all right," he said, turning over, "I'll be me."

Applicant: "Well, here I am about the job you advertised."

Boss: "I see. Do you think you can do the work?"

Applicant: "Work? I thought you wanted a foreman!"

### Doctor: "Look here, don't you know my consulting hours are from 6 to 7 p.m.?"

Patient: "Yes, but the dog that bit me didn't."

Mother, to small son who is going to a party: "Now, dear, what are you going to do when you have had enough to eat?"

Little Tommy: "Come home."

Architect—Now, if you'll give me a general idea of the kind of house you need...

Client—I want to have something to go with a door knocker my wife brought home from Oxford.

### A Federal Question

Oriental Problem Should Not Be Left For B.C. To Solve

British Columbia has no desire to be saddled with the responsibility of solving the Oriental problem, which has become in more ways than one a pretty big matter. The responsibility for the development of the problem is Canada's, not British Columbia's, and the responsibility for finding a solution should be Canada's, too. It is Canada that must find the answer. It is Canada that must bear any disabilities that flow from it. In the past it was the custom to let British Columbia look after the consequences, but Ottawa should have learned by this time that that plan will no longer work.—Vancouver Province.

### The Royal Navy

Now Much Larger Than When The War Began

With the opening of the "Battle for Europe", the task of the Royal Navy is staggering. It is a pleasant fact that today, despite casualties, it has more ships than it had when the war began, thanks to the tremendous speed-up of Britain's shipyards, which built 900 warships during the first three-and-a-half years of the war; and these shipyards are working at an increased tempo this year.

A scientist estimates that a bee travels 43,776 miles in gathering a pound of honey. Yes, and the consumer travels just as far from store to store trying to find the same pound.

THEY LIKE IT AND DIE

## NEW PEACE DEMONSTRATIONS BREAK OUT IN ITALY AFTER SHATTERING RAIDS ON CITIES

LONDON.—Great new peace demonstrations are reported to have broken out in northern Italy following the recent shattering R.A.F. and R.C.A.F. raids on Milan, Turin and Genoa.

Neutral sources said the disorders are raging in the industrial areas north of the Po river, where the Germans reportedly hope to set up a defensive line to meet an Allied invasion of Italy.

Italian Socialists were said to be urging workers throughout Italy to start a general strike in the hope of forcing a quick peace.

Their efforts were spurred on by waves of giant British and Canadian Lancasters which reared over the Alps in bright moonlight to start the Allied air barrage which Prime Minister Churchill has promised will ravage Italy from one end to the other.

Swiss reports said that R.A.F. and R.C.A.F. heavy-weights set off huge fires and explosions in Milan, where civilians have been demonstrating for peace ever since the fall of Mussolini. Even the anti-aircraft crews in the city appeared to have entered the spirit of no-resistance.

Only two planes were lost from the hundreds of four-engine bombers which made the attack, indicating that only a half-hearted defence was put up at the three important cities where peace demonstrations already have tried the strength of Premier Badoglio's new government.

The triple thrust was the heaviest air blow landed on Italy since the nation was warned by Gen. Dwight D. Eisenhower more than a week ago that the Allied aerial assault would be resumed because of Badoglio's temporizing.

The air ministry reported the weather was good and that "well concentrated" attacks were driven home on Italy's limping war industries at Milan and Turin and on her shipping facilities at Genoa.

The ministry reported that one of three bombers originally reported missing had been forced to fly on to a North African base because of engine trouble, indicating that the main force had returned to Britain after the raid.

(The Schwarzenberg radio in Switzerland said enormous fires were visible in Milan from the Swiss frontier, 30 miles away, after the bombers left and that "only toward morning did the fires disappear behind a pall of smoke.") The broadcast, recorded by U.S. government monitors, said the Milan raid lasted approximately an hour.

## ECONOMICAL USE OF AIR POWER IS SHOWN BY THE RECENT RAIDS MADE ON HAMBURG

LONDON.—Evidence of economical employment of air power is revealed by the R.A.F. and R.C.A.F. assault on Hamburg in which Germany's second city has been wrecked at a cost of 88 bombers and between 600 and 700 men.

A direct comparison of the R.A.F.'s feat with that of the Luftwaffe in the Battle of Britain is not available for lack of a complete breakdown of Nazi air losses over and around the British Isles.

However, several contrasts are outstanding. The R.A.F.'s and R.C.A.F.'s feat of dropping 9,500 tons of bombs on Hamburg in a few raids represents a larger tonnage than the Luftwaffe dropped upon London during the whole blitz period.

During the blitz, the Luftwaffe lost approximately 2,500 airplanes of all types. About half the German effort was directed at London so it may be estimated that 1,200 of the planes were lost against the capital. That works out for a ratio of one plane per five tons of delivered bombs.

The R.A.F. and R.C.A.F.'s figures work out to one plane lost per 108 tons of bombs delivered. Nazi losses include both bombers and fighters, making the personnel losses lower per plane.

But the startling disparity in losses more than makes up for the man-loss difference. Economy in time of delivery also stood out in the Hamburg raids, which averaged 45

### PROPAGANDA

**Pamphlets Distributed In Germany Under Nose Of The Gestapo**  
STOCKHOLM.—A Swedish newspaper says thousands of propaganda pamphlets are being distributed throughout Germany under the very nose of the Gestapo.

The newspaper says the pamphlets describe what would happen if a political shake-up like the Italian one were to be duplicated in Germany.

Under the title, "Give the Germans the true picture of what happened when Mussolini crashed," the circulars are graphic in their detail. They tell how thousands of German war workers strike and parade, shouting "event peace."

Hitler would resign and retire, the pamphlets say, and Goering, Himmler and Goebbels would be thrown into jail. "The aroused masses," the pamphlets continue, "would break into Nazi villas and distribute the foodstuffs among the people."

### COAL SHORTAGE

**Strip Mining Projects Are Being Established In Alberta**

EDMONTON.—W. J. Taylor of Calgary, Alberta, coal controller, said that strip-mining projects are being established at seven points throughout the province to relieve the expected coal shortage this winter.

Coal seams are being opened at Andrie and Taber in the southern part of the province, and at Dooda, Camrose, Castor, Tofield and south of Lake Wabamun. Mr. Taylor said the general supply situation is "slightly easier, but the utmost co-operation of the consuming public will be necessary to meet the serious supply situation during the winter."

An output of 5,000 tons a day is expected from "stripping" of surface coal mines in the province to help meet the coal requirements of the province, he added.

### INDIAN HARVESTERS

WINNIPEG.—Seventy-three Indians, first arrivals of 1,000 men coming from the north to work in the harvest fields, arrived here. Shortly afterwards they left for scattered points in Manitoba to commence harvest operations.

### USE CANADIAN WHEAT

SACRAMENTO, Calif.—The United States War Food Administration will supply 400,000 tons of Canadian wheat to California dairymen who are critically short of livestock feed, the state department of agriculture announced.

### ALASKA HIGHWAY

**Investigation Of Road Now Under Construction Will Be Made**

WASHINGTON.—An investigation of the Alaskan highway now under construction will be started Aug. 27 by a United States senate post-roads sub-committee headed by Senator H. C. Sorensen (Dem., Nev.), his aides said recently.

Plans call for the group to start from Great Falls, Mont., and proceed along the highway into Alaska.

Senator William Langer (Rep., N.D.), a sub-committee member, commenting on the purpose of the highway investigation, said:

"We have been furnishing \$100,000,000 of our money in building that road and we want to see how it is being built and whether our money is being wasted. We also have to maintain the road at least two years after the war."

### NEW POSTAL SERVICE

**Will Be Of Benefit To Officers And Men On Merchant Ships**

OTTAWA.—A new postal service to expedite the handling of mail sent in Canada and addressed to officers and men serving on foreign-going merchant ships, was announced by Arthur Randies, director of merchant seamen.

The mail will be cleared through Montreal and should be addressed: Name of person, Name of ship, C-O Post Office Box 9000, Montreal, P.Q.

Mr. Randies said the arrangement was made in an endeavor to give further service to seamen and was made possible through the co-operation of Canadian postal authorities, naval postal services and the British ministry of transport.

### NEW BARLEY SHIPMENT

MORRIS, Man.—The first car of new barley was loaded at the Love farm near here by the Manitoba pool in C.N. car 510465 and shipped over Canadian National lines to the Manitoba wheat pool at Port Arthur. The shipment consists of 2,200 bushels and was grown by George J. Wiebe, J. G. Harder and Isaac Chaponsky. Yield was 20 to 25 bushels per acre.

### RETURN OF TERRITORY

LONDON.—T. V. Soong, Chinese foreign minister who is visiting Britain, told a press conference that China expects Manchuria and Formosa to be returned to her after the war. When asked about the Chinese attitude toward Hong Kong, he said the British crown colony, he said he preferred "not to take notice of the question."

### Army Medico

Canadian Army photo.

Accompanying Canadian Sicily invasion forces to the Middle East were Nursing Sisters of the Royal Canadian Army Medical Corps and Capt. Marion Ross, of Toronto, who is the first woman to be commissioned in the Canadian Army as a medical officer. A graduate in medicine of the University of Toronto, Capt. Ross did post-graduate work in bacteriology at the University of London. Before joining the Royal Canadian Army Medical Corps in November, 1942, she held the appointment of Bacteriologist, Emergency Public Health Laboratory Service, under the British Ministry of Health.

### CHANGE POLICY

**Allied Victories May Cause Sweden Into Open Defiance Of Nazis**

STOCKHOLM.—Allied victories may be stirring Sweden into open defiance of Germany.

Long governed by the wishes of the Nazi giant to the south, political observers at Stockholm say that Sweden now might be ready to deny the passage of German troops through Sweden to Danzig.

Reports that the government already had decided on the move are believed to be true. It is also thought possible that Germany already has been informed of the decision.

Now these observers believe that Sweden has only to decide when to make the decision public. When and if Sweden makes the move, it will be her most important political step in three years.

### SALE OF MOTOR VEHICLES

OTTAWA.—The Dominion Bureau of Statistics reported 4,910 new and used motor vehicles financed in June at a value of \$1,769,361—28 per cent. lower in number and 23 per cent. lower in dollars than June 1942 figures.

### Trainbusters!

Trainbusters, both of them—these two Royal Canadian Air Force flyers are relentlessly carrying the war against enemy lines of communication and transport in the occupied countries. Flying Officer J. A. Morten of Didsbury, Alta, right, and Flying Officer D. M. "Bitty" Grant, D.F.C., of Watrous, Sask., left, have both chalked up outstanding records with their daring sorties. Both flyers appear in action in the new R.C.A.F. film "Trainbusters", just released across Canada. "Bitty" Grant, whose outstanding record is nine trains in one day, has been overseas with the R.C.A.F. for the past two years. He was formerly prominent in athletics, attaining distinction as a tennis player at Calgary. Morten was a fireman in days of peace.

### Gateway To Yugoslavia—Powder Keg Of Europe

A view of the harbor of Ragusa, gateway to Yugoslavia and that country's showplace on the Adriatic, which used to be visited by thousands of tourists annually. Ragusa may play a more important role in European history if the Allies select this section of the coast for an invasion. From nearby mountain strongholds General Mihailovich's valiant guerrilla patriots would co-operate with an Allied landing.

## POPULACE OF GERMAN CITIES BECOMING PANIC-STRICKEN OVER ALLIED MASS RAIDS

LONDON.—German authorities were reported frantically trying "to control a mass stampede" from panic-stricken Berlin where bomb-shocked Hamburg refugees have spread horror stories snapping the already frayed nerves of Berliners expecting imminent mass air attacks.

Spanish correspondents hinted that non-military developments of unusual import were going on in Berlin, and Nazi Propaganda Minister Goebbels acknowledged a "partial evacuation" of the capital because of fears of attacks on the devastating Hamburg scale.

Strikes and other troubles also were reported brewing in Germany at a time of sagging morale caused by German reverses in the air and shield.

Reuters news agency quoted arrivals in Zurich from Berlin as reporting that thousands of refugees from bomb-smashed Hamburg were spreading tales in Berlin of fantastic casualties in the Allied raids, and that these persons have been arrested in feverish efforts to slow the growing panic.

Swedish dispatches at the same time related that the R.A.F. showed leaflets over the Reich capital, warning the people that Berlin would serve as a sequel to the fate of Hamburg, which has become the world's most bombed city. In the recent week-long series of air attacks on Hamburg, 200,000 casualties were suffered, it has been estimated.

The inhabitants of other German cities, suffering from an air raid psychosis, have become indifferent about their property, expecting it to "go up in smoke" with the next attack, a man who journeyed extensively in the Reich said in an Associated Press despatch from the German frontier.

A CBS correspondent at Berne, Switzerland, quoted the Nazi newspaper in Berne, Das Volk, as reporting a wave of strikes in German war plants where "the workers refused to return to their benches even after they were offered additional food rations . . . the benches now have been occupied by troops of the Gestapo."

During the last week Spanish correspondents in Berlin have all ended their despatches with mysterious references to news they could report if Nazi censorship permitted.

For example, a despatch to Informations in Madrid said: "Obliged by circumstances to limit ourselves to military events, we must leave for another day subjects by no means less interesting."

Evacuees were reported streaming from Berlin, obviously envisioning the ghastly spectre of a smouldering Hamburg and faced by the candid warning of Hitler's propaganda boss, Dr. Paul Joseph Goebbels, that the German capital was to be next on the doom-list of Allied air might.

Even Goebbels acknowledged that Berlin's population was thinning out, but he said it was not a mass evacuation as yet.

A D.N.B. report said Marshal Goering had arrived in Berlin, from Hitler's headquarters, and then flew on to Hamburg to inspect air raid damage.

It was Goering who once boasted that Germany was safe from Allied air attack.

Goebbels' warning of what may come to Berlin, coupled with his acknowledgement of the exodus and an appeal that the Germans keep up their morale as Britons did during the 1940 aerial lashing by the German air force, was broadcast as he hurried from Hitler's headquarters for another visit to the wreckage that is Hamburg.

His statements, which merely underscored Germany's new viewpoint of gloom—came less than 24 hours after an R.A.F. commentator implied that the lengthening nights were rushing Berlin's hour of doom.

## Harvest Help May Be Moved By Use Of Trucks

EDMONTON.—Hugh McAfee, service officer, truck control, of the regional office of Wartime Price Board, said that farmers in Alberta, Saskatchewan and Manitoba may transport extra help in trucks during harvesting operations if farmers first obtain special permits.

The special permit is for the period Aug.-Nov. 15 inclusive, and covers transportation of helpers only if they are going to or coming from harvesting operations. Mr. McAfee said the permit permission temporarily cancels an order disallowing truck transport of farm workers and applies only to the three prairie provinces.

Any problem faced in handling the 1943 grain crop "will be one of storage and not of transportation," George Stephen of Montreal, vice-president of the Canadian Pacific Railway in charge of traffic, said in an interview here. "We do not anticipate any difficulty in moving the crop," he added.

Here on a business trip through the west, Mr. Stephen expects to return to Montreal at the end of August.

Recently announced reduction in railway freight rates on less-than-carload lots by Canadian National Railways will have a beneficial effect on the movement of salvage from country points to processing mills, W. S. Kickey, of Winnipeg, supervisor of national salvage for western Canada, said here.

Mr. Kickey is here to confer with E. C. Fisher, regional organizer for northern Alberta and the Peace River block, B.C., and other organizations interested in salvage work in Edmonton. Former supervisor for Saskatchewan and Manitoba, Mr. Kickey was named western supervisor following the retirement of A. Shelton of Calgary, supervisor for Alberta and British Columbia.

### OVERSEAS MAIL

**By Transport Plane Has Completed**

Record Round Trip  
MONTREAL.—Officials of Trans-Canada Air Lines said that "record" mail loads were carried by a big transport plane that completed a round trip from Montreal to Britain in the Canadian government's trans-Atlantic service.

Bulk of the mail, the officials said, consisted of letters to and from members of Canada's armed forces overseas. A small amount of diplomatic mail was also carried.

### NOTES AND COMMENTS

#### Danger Ahead For Liberals

The Mackenzie King Liberal government must be giving deep thought to Monday's federal bye-elections in which Liberals failed to secure one seat, despite the fact that they contested all four constituencies.

The growing popularity of the CCF in western Canada was further enhanced when they won the seats of Humboldt, Sask., with over 3,000 majority and Selkirk, Man., with over 5,000 majority. In Quebec, however, Progressive-Labor and Bloc Populaire won the seats with one CCF candidate only polling 248 votes to lose his deposit.

Political unrest in the western provinces has been apparent for a number of years and the election of two CCF candidates in Monday's elections make it apparent to all who care to notice. It has been reported from Ottawa on numerous occasions from competent political writers that the Mackenzie King government has been toying with the idea of a general election. Monday's voting is almost certain to have eliminated such thought in the minds of government leaders and it is a safe bet that they will endeavor to try and popularize the party throughout the Dominion before a general election is called.

#### We Have Another "Historic" Conference

Prime Minister Churchill and his party are again on this side of the Atlantic for conferences with President Roosevelt and his advisers and Prime Minister King and the Canadian war cabinet. Since the British Prime Minister's last visit to Washington in May the war's progress has moved with amazing rapidity. So rapid in fact that it is apparent to all that the decisions reached at the May conference will have to be revised and new decisions reached to take advantage of the sensational developments in Europe which has seen one dictator disappear from power, a new government in Italy and important discussions in high German quarters regarding the sudden changes in the German war fortunes. Russia is once again asking bluntly for a second front. With North Africa and Sicily to use as British-American bases it is almost certain that an Allied attack upon the continent of Europe will take place shortly after the new conference between the British and American leaders has been concluded.

#### Flying Toward Victory

The forthcoming conference between PM Churchill and President Roosevelt gives further evidence that progress toward victory is ahead of the official schedule of the Allied Nations. Military men warn that there is still much hard fighting ahead, but the good news from every theatre of this global war makes the civilian ignore this warning in great degree.

Allied air power has advanced to an enormous degree in a few short years. The RAF is stepping up its devastating attacks on German cities, the American Eighth Air Force is growing in strength daily and is flying deeper and deeper into Germany in daylight raids, the Royal Canadian Air Force is winging its way alongside its British uncle and doing a magnificent job of bombing and fighting the enemy.

In comparison the German air power is said to be hampered by shortages of gas caused by the devastating attacks of Allied raids. More important, the German morale is reaching a new low. Hamburg has been ruined, many killed. Now Berlin fears she is next, on the list, a million civilians have been evacuated, many more will follow.

Allied wings are strengthening at such a speed that even Allied statesmen have a tendency to shorten their estimates on the duration of the war.

#### Ask For Fish and Game Warden

Pass sportsmen, and especially in Coleman, are asking that a fish and game warden be appointed for the Crows' Nest Pass forest areas and be stationed in the Pass. Unfortunately not all abide by the rules and regulations governing hunting and fishing, and it appears that poaching and illegal fishing has reached the point where the guilty persons should be stepped on. If such is the case, provincial game authorities should take heed to their request and make full investigation. A game warden is said to be located at Lethbridge, but it is doubtful if he can police the forests adequately when residing at such a distant point.

#### Big Game on the Increase

Lack of shells due to the war and the fact that few people are entering the local forests have tended to foster increased numbers of various species of big game in this locality. Moose and elk appear to show the largest gain, while deer, sheep and bear are to be seen in greater numbers. Another factor which has aided in their increase has been the lack of any serious forest fires for the past several years.

## Soldiers' Letters

### The Journal:

Well here goes again for a few more lines of interest—I hope.

I received letters from Howard Campbell and John Nimcan a couple of nights ago and they've just landed recently. Johnny Nimcan says that Willie Leier is with him too. They like it so far and are anxious to meet somebody from home and they aer both going to look me up shortly I would really like to meet them and I have told them how to get in touch with me and we're really going to have a re-union.

At the present moment I'm in the hospital for a few days with a sore throat and I am really finding a lot of time to write letters and catch up on a lot of sleep.

I haven't received an. Journals for a few weeks but I expect three or four shortly and I am anxiously awaiting them to catch up on the local news.

I was very near where they bombed the cinema just the other day, it really was a terrible sight. He wasn't satisfied at bombing the town but came back and machine gunned the streets and what a mess he left the streets in. On one street every big window (plate glass) was broken. I didn't go to the show that night thank God but I was in it just recently.

Oh well that's nothing to what our lads are giving them every night and day especially in Sicily nowadays.

Well we might not be home this Christmas but I wouldn't mind betting a quid we'll all be home for the next one.

I'll say cheerio for now and Howard, Willie and Johnny send their best regards to all their friends also.

Cheerio and Thumbs up.

Lorny

P.S. Hello to Mom and Dad.

Editor's Note: Lorny fails to tell all his activities in England. It is learned from his parents that in recent weeks he took unto himself a wife, a Miss Violet Edwards, of Surrey. His many friends will join with us in wishing them many years of happy married life.

#### SIDEWALKS NEED REPAIR

A piece of sidewalk located in front of the dividing line between the Coleman Hardware and White Lunch Cafe properties on main street is badly in need of repair. This was most noticeable on Saturday evening when theatre patrons were coming out of the show. The concrete is badly buckled and broken, and one part is sticking up an inch or two. It was surprising to see the number of persons stub their foot on this upraised portion of the sidewalk and then look around to see what they had kicked. Another piece of sidewalk that resembles a camel's back is located at the front door entrance of Mr. Janostak's residence on main street.

#### FOUR MEN KILLED IN KERR-ALTA MINE EXPLOSION

Four men were killed in an explosion and cave-in at the Kerr-alta mine, located near Lethbridge, on Monday afternoon. Rescuers found the men 24 hours after the explosion occurred.

They were Sam Crabb, overman; William King, electrician; John Zarebrey, miner, and J. Penta, miner.

Six men who had been working near the air shaft escaped without injury.

#### STIFF FINES ARE GIVEN TO MOTORISTS WITH LOOSE GAS COUPONS

Stiff fines are said to have been meted out to some Pass motorists having loose gas coupons in their possession. The fines have been \$50 and costs.

At Calgary a Regina magazine salesman guilty of the same offence was given five days' jail sentence plus a \$100 fine, failure to pay which would get him an additional 30 days jail term.

#### Theatre Notes

The screen's two leading comedians, Abbott and Costello, appear at the Palace this week end in "Who Done It?" It is their newest fun-riot. Loose clues, stupor sleuths, guns, gals and gumshoes. In addition there is the up-to-the-minute news reels and a short entitled "Cavalcade of Aviation."

At Cole's, Bellevue, this week end is the film "Springtime in The Rockies," starring Betty Grable and John Payne, as well as Carmen Miranda, Harry James and his music makers and Cesar Romero. It is filmed in technicolor and depicts the beautiful mountain scenery of Lake Louise, where practically all the action is said to take place. A love story is wound around the brilliant song and dance scenes and there are four big song hits by Harry James and his music makers.

At Blairmore this week end is

a double program. The first feature is entitled "Priorities on Parade" and features Ann Miller, Betty Rhodes, Jerry Colonna and Vera Vague. It has swinging Rhythmic and six big song hits. The second picture features Hopalong Cassidy in "Stick to Your Guns," a typical range film, with riding, shootin' and everything.

One of the largest U.S. Army pay checks goes to the family of Private Pinkerton, in Chicago? His wife and 10 minor children receive a monthly check for \$192

## Accident Policies

TO MEET EVERY NEED AND TO SUIT EVERY PURSE

### DO YOU KNOW THAT:

- 1 death in 8 is due to accident.
- 5 times as many persons are killed or injured each year as die from natural causes.
- 1 person out of 12 is injured fatally or otherwise each year through accident.
- 1 out of 6 of those injured is made an invalid, a cripple or killed by accident.
- 31% of all accidents are due to automobiles.
- 13% of all accidents are caused by sport or recreation. Golf alone injures more people than railway accidents.
- 10% of all disability claims arise from accidents in the home.

## It's Nice To Read The War News These Days!

To-day we can lift up our newspaper and read the war news in Russia, Sicily, the South Pacific, the war over Germany. No matter which theatre of war we may be interested in the Allies have the offensive and are hammering the enemy mercilessly. It gives one a comforting feeling.

Remember the dark days of 1939, 40, 41 and 42 when the Axis were on the offensive and dealing out hammer blows to our weak defensive lines?

What has changed all this? It is the sterling character and courage of the Allied soldier and above all the courage of those on the home front who buckled down under heavy taxation, rationing and other war restrictions, to turn out the munitions of war so that our armed forces might have weapons that matched, and were in many cases superior, than those used by the enemy.

Your purchase of War Certificates and War Bonds helped produce these munitions. Continue their production by regular purchases of

## LOCAL AND GENERAL NEWS ITEMS

Mr. O. Castellano is a Lethbridge hospital patient.

Mr. Charles Nicholas is a Calgary business visitor.

Mrs. Earl Dodds is visiting her mother at Michel, B.C.

Mr. and Mrs. A. A. Fraser and family are spending a vacation at Waterton.

Louise and Edmund Aboussafy are vacationing with relatives at Wetaskiwin.

Mr. and Mrs. Wm. Lonsbury and family are spending a vacation at Calgary.

Mr. and Mrs. F. Dupree and family spent last week visiting relatives at Claresholm.

Joan Naylor is spending a holiday with her sister, Mrs. Turner, at Sheep Creek, B.C.

John Howarth has arrived overseas according to word received recently by his parents.

Mrs. Mary Fraser has as her guest this week her niece, Joy Hamilton, of Lethbridge.

Miss Margaret Párdell, of Trail, recently visited her father, Mr. Párdell, of east Coleman.

Mr. and Mrs. Carl Lynn, of North Fork, visited Mr. and Mrs. Jack Derbyshire last week.

Miss Kae Snaalek, of Vancouver, is visiting her mother, Mrs. K. Snaalek, for a couple of weeks.

Mrs. Mike Malanchuk and son, of Vancouver, are the guests of Mr. and Mrs. Sam Malanchuk.

Miss Pat Hoyle is taking a special course in physical training at Mount Royal College, Calgary.

Miss Ruth Sudworth has returned home after spending several weeks at summer school at Edmonton.

Russell Montalbetti returned home last week from a vacation spent with his grandmother at Trail.

Six pictures of Coleman air cadets in camp at Macleod air school are on display at unit headquarters on main street.

Mr. and Mrs. R. Tiffin and family have returned home after a visit with Sgt. and Mrs. Fred Beddington at Lethbridge.

Mr. and Mrs. Harold Willetts and daughter Patricia have returned home after two weeks vacation spent at Calgary and Banff.

Mr. and Mrs. John D'Appolonia, of Creston, visited members of their family here last week. They are now visiting at Edmonton.

The death occurred at Pincher Creek on Monday, August 2, of Mrs. Henry Marquis, 69, mother of Mrs. Lance Morgan, of Blairmore.

Born: To Mr. and Mrs. Remigio Gris, nee Emma Bielech, of Natal, at the home of Mr. and Mrs. Bruno Gentile, on Tuesday, July 13, a son, Randolph Keith.

The Journal acknowledges with thanks the renewal subscription received Monday morning from F O John McDonald, of Coal Harbor, B.C.

Mr. and Mrs. H. T. Halliwell left on Sunday afternoon for Toronto, where they will attend the Dominion Weekly Newspapers convention, which is being held there this week.

Mrs. Frank Aboussafy arrived home on Friday morning from a vacation spent with relatives at Winnipeg. While in the city she attended the wedding of her brother Manuel.

Mr. George Pattinson, of Victoria, arrived in town last week and is the guest of his son and daughter-in-law, Mr. and Mrs. R. Pattinson. He visited at Calgary over the week end.

Mrs. A. E. Smith, of Drumheller, who has been the guest of her sister, Mrs. C. D. Rogers, for the past week, returned home on Monday. Miss Helen Rogers will be her guest for several weeks at the coal city.

Mr. John Salvador, of Creston, left on Tuesday for his home after visiting members of his family here. On Friday he visited at Lethbridge, and was accompanied to the city by Mr. and Mrs. Roggiani and Mrs. Wm. Kosma.

Mrs. Robert Gillies returned home at the week end from Banff, where she has resided with her husband, who is under the care of compensation doctors. Bob still has no idea when he will be allowed home. His arm is showing slight improvement.

Mr. and Mrs. Mack Stigler are spending a vacation at Vancouver.

Corporal Norman Youschuk, who has been serving overseas with the RCAF, will arrive home this week.

Born: To Mr. and Mrs. Peter Billey on Thursday, July 22, a son, Marshall Wayne.

Born: To Mr. and Mrs. S. Smith, at Claresholm hospital, on Friday, August 6, a son.

Born: to Mr. and Mrs. Albert Woodshe on Tuesday, July 20, a son, Walter Ronald.

Born: To Mr. and Mrs. J. A. C. D'Appolonia at Holy Cross hospital, Calgary, on Wednesday, July 14, a daughter, Marilyn Elaine.

Mrs. George Ford and son Norman left on Monday for a vacation at Vancouver. They will be the guests of Mr. and Mrs. E. Henriot.

Sgt. and Mrs. George Simms left on Monday for Calgary, after being the guests of Mr. and Mrs. Joe Hillary.

Mr. and Mrs. Dave Gillespie will leave on Friday morning for Vancouver, where they will visit their daughters, Mrs. W. Tucker, Mrs. L. Picard and Mrs. J. Bayon.

Painter Lal Snowden has finished painting the trimmings of the Zak store and on Wednesday afternoon started to give the Coleman Cafe and hotel a "facial."

Provincial highway commissioner Bradley was in town on Wednesday and conferred with Mayor Antroubus regarding flood control work in West Coleman.

At the home of Mr. and Mrs. J. Van Maarion, a farewell party was given in honor of their daughter, Pte. Doris Van Maarion, and Cpl. Lillian Gilchrist, of the CWAC. The girls returned to Vancouver Saturday, August 7.

Pte. Doris Van Maarion, of the CWAC, spent her furlough at the home of her parents, Mr. and Mrs. J. Van Maarion, of Sentinel, Alberta. Accompanying her was Cpl. Lillian Gilchrist and her niece, Gwyneth Gravel, of Vancouver.

### FO W. J. IRVING BACK IN BRITAIN

A cable was received on Wednesday by Mrs. W. J. Irving from the war office at Ottawa, advising her that her husband, FO W. J. Irving, was safely back in Britain.

FO Irving had been reported only last week to have made a forced landing in Portugal, and had been thought interned in that neutral country. What has happened in the meantime to get him safely back in Britain is not known.

No "incentive plan" in your concern can substitute for the incentive of concern that burns in the man himself.

## ANNOUNCEMENT

This is to advise my many friends and patrons in the Crow's Nest Pass that I have sold my General Insurance Business, with the exception of Life Insurance, to the Lamey Insurance Agencies of Blairmore, Alberta.

Effective as at August 1st, 1943, I will make collections for all accounts outstanding up to and including July 31st, 1943.

I want to thank one and all for the splendid patronage and co-operation I have received and trust that the same good will and co-operation will be extended to my successors.

I am continuing my Life Insurance Business with the Sun Life Assurance Company of Canada, and my office will be open as usual in the same location at Blairmore.

Mighty Fallen

A British soldier stands before a big painting of the fallen Mussolini and examines confiscated weapons in Fascist headquarters in Noto, Sicily, after that town had been captured.

Colonial Empire

Voluntary Gifts For Prosecution Of The War Reach Large Sums

Apart from the contributions made by British Colonial Governments towards the cost of their local military forces, the voluntary gifts from the Colonial Empire towards the prosecution of the war now total over £23,000,000 (\$102,120,000). Monetary gifts fall into two main groups—gifts for the prosecution of the war and gifts for war charities; and they have come from every part of the Colonial Empire.

The United Kingdom is providing a great deal of machinery and other equipment to the Colonies in case of wartime restrictions in supply. Amongst many items of machinery sent out are: rice-milling machines to British Guiana, 10,000 saw teeth for Northern Rhodesia, eight windmills for the expanding dairy and stock farming industry in Kenya. Great Britain is also providing instructional films on the use of modern equipment to East African labourers who are using caterpillar tractors, mechanical diggers and other equipment in the construction of roads and aerodromes.

Two-Piece Stand-By

By ANNE ADAMS

This cool, easily-made two-piece will be the mainstay of your summer wardrobe! Anne Adams Pattern 4433 is just as smart without the spanking white collar and cuffs... makes up well in a crisp, chambray, smooth gingham or rayon print.

Pattern 4433 is available only in misses' and women's sizes 12, 14, 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40, 42. Size 16 requires 3 yards 35-inch fabric and 1/2 yard contrast.

Send twenty cents (20c) in coin (stamps cannot be accepted) for this Anne Adams pattern. Write plainly Size, Name, Address and Style Number and send orders to the Anne Adams Pattern Dept., Winnipeg Newspaper Union, 175 McDermott Ave. E., Winnipeg, Man. "Because of the slowness of the mails delivery of our patterns may take a few days longer than usual."

WORLD HAPPENINGS BRIEFLY TOLD

Lloyds has extended its "1000 to 1" air insurance to include civil accidents as well as war risks.

Horse blood has been used in successful transfusions into human beings for immunization against disease.

Magnification of microscopes has been increased from 3,000 to more than 200,000 times, due to recent scientific development.

E. C. Grimley of Montreal, president of R.C.A.-Victor, Limited, drowned in Lake Memphremagog when he fell from the stern of a sailboat. He was 52.

Grand Admiral Karl Doenitz, German navy commander, admitted in a speech that his U-boat crews were young and not the equals of older men, Berlin radio reported.

Reuters news agency said in a despatch from Moscow that it was confirmed that Fedor Gusev, Soviet minister to Canada, will succeed Ivan Maisky as ambassador to Great Britain.

After two years in a German prison camp, William Williams, has returned to his Halifax home. He is believed the first Canadian to return to the Dominion in a prisoner-of-war exchange.

Water For Poultry

Water Is A Most Important Necessity In Egg Production

In view of the large number of eggs required this season to fulfill the contract with Britain and to supply the domestic demand, the Dominion Department of Agriculture stresses the importance of water for poultry. Birds need an abundance of clean, fresh water before them at all times, especially at laying time—the early morning and afternoon. Lack of sufficient water means lowered egg production. A bird seeks a drink of water the first thing after leaving its nest, and birds will drink more water when it is kept fresh than when it is changed only once a day. Water should be renewed often and containers cleaned at least once daily. Egg quality also is lowered when birds are forced to drink dirty stagnant water.

Birds have no sweat glands. They depend on their lungs to throw off body moisture. Prolonged lack of water means parched lungs and suffering.

Buys First Ticket

Hon. Peter Heenan, Ontario minister of labor, had the honor of buying Ticket No. 1, Canadian Pacific Air Lines, when he made a charter flight from Regina to Saskatoon to attend the funeral of his brother, John Heenan, Sutherland, Sask. The Regina office of Canadian Pacific Air Lines was allotted the first book of passenger tickets to be put on sale over the system, and Mr. Heenan happened to purchase the very first one of the series. With him on the flight was his nephew, Peter Heenan, of Vancouver, son of the late John Heenan. At top in above picture is the ticket which the Ontario labor minister bought and below Mr. Heenan is seen (centre) purchasing it. At right is J. L. Green, district traffic manager, C.P.A.L.

Speed Of Animals

Antelope Said To Travel At Rate Of 60 Miles Per Hour

Jack rabbits, under the stimulus of being chased by an automobile, have been clocked at 45 miles per hour. Under the same conditions a young buck deer reached 49 miles. Pronghorn antelope have frequently been measured in full flight from automobiles and airplanes at a top speed of 60 miles an hour. Thus the antelope is a mile away by the time that the rattlesnake has just started. However, the rattlesnake relies on poison rather than speed to save himself.—Calgary Herald.

SUNDAY SCHOOL LESSON

AUGUST 15

GOD PROVIDES FOR HIS PEOPLE

Golden text: Give us this day our daily bread. Matthew 6:11.  
Lesson: Exodus 16:17.  
Devotional reading: Psalm 57: 6-11.

**Explanations and Comments**  
The Israelites complain of the Lack of Food, Exodus 16:1-3. This is the third recorded "murmuring" of the Israelites. It is the fifteenth day of the second month, and they have come to the wilderness of Sin. "Yea, that we had died by the hand of Jehovah in the land of Egypt, when we sat by the fleshpots, when we did eat bread to the full," they said, and they accused Moses of having brought them forth into the wilderness to kill them all with hunger. They have already forgotten the hardships of the life of bondage, the taskmaster's lash and all the cruelties they were forced to endure. Their spectacles of regret magnified past blessings and dwarfed past sufferings. Murmurers still have short memories.

Food is Promised, Exodus 16:4-12. "Your murmurings are not against us, but against Jehovah," Moses said to the people, as he told them that God had heard their murmurings and would send them flesh to eat at evening and bread in the morning, and that they should know that he is Jehovah—know it by this manifestation of his power and care.

The Nature of the Food Provided, Exodus 16:13-15. At evening quails came up and covered the camp. In March and April quails come from the interior of Africa to Syria, crossing the peninsula of Sinai, and in the fall they return. Being heavy birds, they always fly with the wind. When exhausted, with flying they alight upon the ground, and are then easily captured by hand.

In the morning dew lay round about the camp. When it evaporated there remained on the ground a small round thing (flake) is the translation in the margin of our Bible, small as hoarfrost. Compare the description in Num 11:7. The dew is thought of as falling from heaven and with it the manna, Num 11:9. "What is it?" the Israelites questioned, as they sought for food along the ground and picked up a small round thing. "Kor," found, was Moses' answer; "It is the bread which Jehovah hath given us to eat." The manna is always spoken of as bread, and was a substitute for grain.

Mountain goat parents, in order to teach their young the art of safe landings, push them over cliffs.

Seven Long Years

Man Served Time In Prison For A Crime He Did Not Commit

William Roy Hathaway of Birmingham served seven years in the Alabama state prison for a crime of bank robbery which he did not commit, and the legislature has just approved a bill which will give him \$7,000, as compensation for those lost years locked behind steel bars.

The \$7,000, if invested wisely and prudently, may reasonably start Mr. Hathaway along the greatest road of prosperity he has ever known through an impoverished life, but that \$7,000 is small payment indeed for depriving any innocent man or woman of their liberty for such a portion of the average span of existence.—San Francisco Argonaut.

The history of Rumania began in 101 A.D., with the Roman colonization of the Dacian kingdom.

Poland's Demands

Want East Prussia And Full Access To The Sea

Premier Stanislaw Mikolajczyk states that Poland would demand East Prussia and full access to the sea in the post-war settlements.

Poland's future is dependent on "wide open access to the sea and restoration to the mother country of the lands seized from Poland in the aged-old German march to the east," the head of the Polish government in exile said.

"I should welcome resumption of friendly relations with Soviet Russia," Mikolajczyk told reporters. "I appreciate the efforts of the American and British governments to bring the gap."

Neckercloths worn by enlisted navy men were first worn in the British Navy to mourn the death of Admiral Nelson.

## Local News

Mrs. Ernie Houghton, of Calgary, is the guest of her daughter, Mrs. Robert Jenkins.

Pte. Milan Rucka has arrived overseas, according to a letter received by his parents on Monday morning.

Mr. and Mrs. M. Squarcella, of Second street, moved to Kimberley last week, where they will take up residence. They came to Coleman in 1926 from Blairmore. Mr. Squarcella has not been enjoying good health in past months and it is thought the change would benefit him.

Delegates from this district to the U. M. W. of A. convention in Calgary last week included G. Ford, J. L. McNeill and P. Meronick, Coleman; J. Walsh, William Stewart and Jack Dugdale, Bellevue; W. A. Arland, Joe Krkosky, John Lloyd and E. Williams, Blairmore; Sidney Hughes, Sam English and Tony Podrasky, Natal.

Mr. and Mrs. Wm. Antle left on Wednesday for two weeks visit with friends at Arrow Lakes.

Tony Sikora has received his discharge from the army and has now started in the local mines.

Mr. and Mrs. W. D. Short and daughter are on two weeks vacation and will visit at Skiff, Lethbridge and Calgary.

The west side of Coleman Meat Market is being stuccoed this week by Contractor J. A. C. D'Appolonia.

LAW May Ramsay, of Claresholm air school, spent last week with her parents, Mr. and Mrs. J. Ramsay.

Mrs. Lloyd Sanderson and two children, of Kimberley, are the guests of the former's parents, Mr. and Mrs. O. Smith.

Mr. A. Dewar visited his daughter, Mrs. R. Donaldson, and husband, at Lethbridge last week. On his return home he was accompanied by his grandson.

Mrs. Madge LeRoy, of Penticton, is visiting her sisters, Mrs. A. Hayson, of Bellevue, and Mrs. R. R. Pattinson, and their husbands this week.

Mrs. J. Tutt left on Monday for her Hillcrest home after spending several days the guest of Mr. and Mrs. Robert Parry.

Mr. J. Salvador returned to Creston on Tuesday and was accompanied by LAC Oliver Salvador and Rose Kosma.

Mrs. W. T. Rudd and baby left on Monday for eastern Canada, where she will join her husband who is based there with the RCAF.

Sgt. and Mrs. Fred Beddington, of Lethbridge, and Mr. Steve Machin, of Edmonton, were in town during the week visiting relatives here.

Mrs. Jim Kerr and children left on Tuesday for Medicine Hat, where they will spend a vacation with the former's parents, Mr. and Mrs. A. D. May.

Mrs. J. Salus left recently to take up temporary residence at Wetaskiwin, where her husband, Pte. Salus, is based. They are expected home on a visit here this week.

Mrs. John Bell has returned home after residing at Calgary for the past few months with her husband. "Jock" only last Saturday left the hospital after an operation on his ankle. He still has one more operation to undergo.

Mr. James Gilchrist, of Pincher Creek and an oldtimer of this district, was renewing old friendships here on Tuesday. He had accompanied his son to Coleman, the latter being enroute to his army base at the Pacific coast.

Mayor and Mrs. Fred Antrobus will motor to Calgary on Sunday with their daughter Freda, Miss Freda, who has been visiting her parents for the past month, will leave on Monday for Toronto, where she will continue her musical education.
